SUMMARY OF SKILLS AND QUALIFICATIONS

Operating Systems | Windows 365 • Windows 10 • Mobile

Applications | Word • Excel • PowerPoint • NetBeans • Eclipse • IntelliJ

Programming | C++ • C# • Java • JavaScript • Python • HTML • JavaFX • CSS • Vite • React router • React
• SQL • JSON • Node.js

Platforms | Oracle Database • Java platforms

Methodologies | Lean Engineering/Manufacturing • Six Sigma • DMAIC • Agile and Scrum • Project Management
• Change Management • 5s

Other | SolidWorks (beginner) • Visual Studio • GitHub

Languages | French | Spoken & Written – fluent • English | Spoken & Written – fluent • Arabic | Spoken – Basic
• Italian | Spoken & Written – Basic

Licenses & Certifications | • CS50x: Introduction to Computer Science — Harvard University • Valid driving permit

EDUCATION

Bachelor of Engineering – (Software Engineering Co-op)

2025 - 2029 (Expected)

Concordia University, Montreal, QC

- Relevant Courses: Comp 248, Soen 228
- Member of the Institute for Co-operative Education

DEC in Mathematics and Computer Science

2022 - 2024

Champlain College, Saint-Lambert, QC

- Honor Roll (2022, 2024)

PROJECTS

Sand Market (Personal)

Personal Project, Montreal, QC

2026

- Engineered a full-stack marketplace prototype for digital cosmetic trading, with listing management, internal wallet balances, deposits, withdrawals, notifications, and administrative controls; implemented back-end fee logic, transaction lifecycle handling, and persistent marketplace data storage.
- Implemented a ledger-based backend with PostgreSQL, background workers, and role-based access control to support auditable balance movement, operational workflows, and scalable marketplace functionality.

Core Competencies: Full-stack web development, TypeScript, Next.js, NestJS, PostgreSQL, Prisma, Redis, payment systems design, authentication & authorization, marketplace architecture

Smart Course Companion (Academic)**2026**

Concordia University, Montreal, QC

- Built a responsive course-tracking platform for university students to manage courses and assessments, log grades, and visualize progress; implemented secure authentication, server-side grade calculations, and persistent data storage.
- Utilized React and React router to build a multi-page SPA with smooth navigation between dashboards.

Core Competencies: Full-stack web development, responsive UI design, authentication & authorization, server-side business logic, team-based agile delivery

Educational Curling Game (Academic)**2023**

Champlain College, Saint-Lambert, QC

- Led full-stack development of an educational curling game teaches geometry concepts through real-time angle calculation, trajectory prediction, and physics-based collision mechanics between stones.
- Implemented a custom 2D physics engine featuring friction simulation, momentum transfer, and dynamic collision detection to deliver accurate and responsive gameplay.
- Designed an interactive scoring and feedback system that reinforces geometry learning by visually highlighting angle relationships and collision outcomes after each throw.

Core Competencies: Critical thinking, problem assessment and analysis, adaptability, problem solving, efficient algorithm usage.

WORK EXPERIENCE

CAE Immersion Micro-Internship Participant**May 2026 - Present**

CAE, Montreal, Quebec (Virtual)

- Participating in CAE Immersion, a virtual micro-internship focused on aviation training, simulation technology, export control, Lean methodology, and professional workplace practices.

Sales Manager**January 2019 – June 2021**

Les Produits Starchem Canada, Brossard, Quebec

- Managed client relationships by conducting product presentations and handling inbound customer calls to address inquiries and drive sales.
- Coordinated the full order fulfillment process, including order preparation and merchandise storage, ensuring accurate and timely delivery to customers.
- Maintained organized inventory and storage systems to support efficient daily operations.

Cashier Packing Assistant**April 2025 – August 2025**

Costco Wholesale, Brossard, Quebec

- Operated as a polyvalent team member, rotating across cashier, packing, cart retrieval, stocking, and loss prevention roles based on daily store needs
- Assisted customers at checkout and packing stations, ensuring a smooth and efficient shopping experience in a high-volume retail environment.
- Supported floor security and store safety protocols by monitoring designated areas and responding to incidents as needed.

INTERESTS

- Reading: Enjoy exploring a wide range of genres to continuously learn and expand perspective.
- Weightlifting: Committed to personal fitness and the discipline of consistent physical training.
- Personal programming Projects: Passionate about building custom tools and scripts to solve everyday problems and sharpen technical skills outside of academics.
- Video Games: Keen interest in game design and interactive experiences, which complement my development background.
